PERSONAL PROJECTS

Cocktail (11/2022 - 12/2022)
- The cocktail website created using React, Redux, and React Toolkit is a great platform for cocktail enthusiasts. With its search functionality,
- users can easily find their favorite cocktails and view detailed information about them. The website also allows users to add cocktails to their cart, making it convenient to purchase their favorite drinks
- Tech Stack: ReactJS and Redux Toolkit
- Github Link:- https://cocktail2.netlify.app

Portfolio Project (10/2022 - 11/2022)
- My portfolio showcases my work through a clean and visually appealing layout. Built with HTML, CSS, and Bootstrap,
- it highlights my skills and projects with ease
- Tech Stack: Html Css and Javascript
- Github Link:- personalportfolio10.netlify.app

Login form (08/2022 - 08/2022)
- Login form created using HTML and CSS is a simple yet effective way to allow users to log into a website or application.
- With its clean design and user-friendly interface, users can easily input their login credentials and access the desired platform.
- Tech Stack: Html and Css
- Github Link:- https://simpleform10.netlify.app
